Consent for accessing Prescription Benefit History

This consent allows Dr. Wendy Corning permission to obtain drug information during the time of your office visit. This information is obtained via secure access from community pharmacies, patient medication claim history from payers, and pharmacy benefit managers.

- ☐ Yes, consent given. (All medications prescribed, by any provider that had pharmacy claims filed against patient insurance will be retrieved)
- ☐ No consent given.
- ☐ Prescriber (Only medications prescribed by the requesting physicians will be retrieved if pharmacy claims have been filed)
- ☐ Parent/Guardian consent on behalf of a minor for prescriber to receive the medication history from any prescriber
- ☐ Parent/Guardian consent on behalf of a minor for prescriber to only receive the medication history this prescriber prescribed

(We recommend consenting to this as it allows us to make sure all your medications and dosages are correct).

Financial Agreement and Authorization for Treatment

PAYMENT POLICY

We take Cash, Checks, Money Orders, Debit Cards, and Visa and Mastercard Credit cards. Patients without insurance are required to pay in full at the time of service. We require insurance co-payments to be paid at the time of service. Since insurance deductibles and co-insurance are often not known at the time of service, we will bill you for these after your insurance has paid. However, we reserve the right to collect known deductibles and co-insurance at the time of service.

We will process insurance claims for office procedures or surgery, however, please be aware that you, the patient, are responsible for the bill. Prompt payment of any amounts due after your insurance has paid is necessary to remain a patient of this practice. In addition, any patient who files bankruptcy and lists Wendy Kinsey Corning, M.D., LLC as a debtor will no longer be seen by this office.

Accounts that are delinquent after 90 days may be subject to collection and all costs involved, including, but not limited to, attorney fees, court costs, and judgment interest, and will be considered patient responsibility. Any legal action will be filed in the Monroe County Court system.

I hereby authorize payment of medical benefits to Wendy Kinsey Corning, M.D., LLC for services furnished to me by my provider. I further agree to pay all co-pays, deductibles, non-covered services or charges considered above usual and customary (non-contracted carriers only) by my insurance company.

PATIENT CONSENT FOR USE AND DISCLOSURE OF PROTECTED HEALTH INFORMATION

I hereby give my consent for Wendy Kinsey Corning, M.D., LLC to use and disclose protected health information (PHI) about me to carry out treatment, payment and healthcare operations (TPO). Wendy Kinsey Corning, M.D., LLC's Notice of Privacy Practices provides a more complete description of such uses and disclosures.

I have the right to review the Notice of Privacy Practices prior to signing this consent. Wendy Kinsey Corning, M.D., LLC reserves the right to revise its Notice of Privacy Practices at anytime. A revised Notice of Privacy Practices may be obtained by forwarding a written request to Wendy Kinsey Corning, M.D., LLC's Privacy Officer at 383 S Park Ridge Rd, Suite 102, Bloomington, IN 47401.

With this consent, Wendy Kinsey Corning, M.D., LLC may call my home or other alternative location and leave a message on voice mail or in person in reference to any items that assist the practice in carrying out TPO, such as appointment reminders, insurance items and any calls, pertaining to my clinical care, including laboratory results among others. Wendy Kinsey Corning, M.D., LLC may also mail to my home or other alternative location any items that assist the practice in carrying out TPO, such as appointment reminder cards and patient information.

I have the right to request that Wendy Kinsey Corning, M.D., LLC restrict how it uses or discloses my PHI to carry out TPO. However, the practice is not required to agree to my requested restrictions, but if it does, it is bound by this agreement. By signing this form, I am consenting to Wendy Kinsey Corning, M.D., LLC's use and disclosure of my PHI to carry out TPO.

I may revoke my consent in writing except to the extent that the practice has already made disclosures in reliance upon my prior consent. If I do not sign this consent, or later revoke it, Wendy Kinsey Corning, M.D., LLC may decline to provide treatment to me. (Patients under 18 years of age will need a parent or guardian signature authorizing treatment and consenting to financial responsibility.)

Dear Patient:

You are scheduled for an annual exam. An annual exam consists of **Wellness Issues Only**. It is a head-to-toe physical exam, including a pelvic and breast exam and the collection of a Pap test. We will arrange for age-appropriate routine testing such as a mammogram, screening blood work such as cholesterol, or follow-up blood work such as thyroid levels to monitor known problems. This exam may include minor problems such as uncomplicated infections, STD screening, and contraception changes, refills or medications, or any changes of medications, etc.

However an annual exam **Does Not** include prolonged consideration of medical conditions. **These Are Problem-Focused Visits And Will Be Billed As Such**. These are issues including but not limited to detailed discussions of contraceptive options, evaluating pain, heavy periods, PMS, bladder-control problems, menopausal concerns, detailed questions about hormone therapy, reviewing blood work or biopsies, etc. Sometimes, a significant problem may be found during an annual exam. The additional time to evaluate a new problem found on exam is also not part of an annual exam. **This means that there may be two (2) separate charges to the insurance for the single exam. One for the Wellness and one for the Problem Focused Issue**. **ALL Problem Focused Visits Are Subject To Co-pays & Deductibles Set Up By Your Insurance.**

It is the practice of this office to file claims with insurance that accurately reflect the services rendered. This means that your insurance may be billed for both an annual exam and a problem-focused visit/exam. Most insurance companies cover both services on the same day. **However, If You Do Not Have A Co-Payment For Wellness Visits, You May Have One For A Problem-Focused Visit Rendered On The Same Day.**

If you have significant problems at the time your annual exam is scheduled, it may also be necessary to postpone either the annual or the problem-focused visit and do them separately. Dr. Wendy Corning may have other patients scheduled immediately after your appointment, and it would not be fair to those patients to have their visits delayed excessively. We may also be aware that your insurance company will not pay for both services on the same day. In that case, we will ask you to schedule another appointment.

I have read the above and agree to the policies of Wendy Kinsey Corning, MD. LLC

Dear Patient,

During your exam today, we will be performing a Pap test. A Pap test is a screening test for cervical and vaginal cancer. A normal screening will be returned to us as “negative”.

Sometimes this screening test will be returned to us with a result labeled “atypical” or “squamous cell lesion”. In this case, further testing is needed to determine the cause of the unusual or atypical cells. This follow-up testing will determine the presence or absence of HPV, or Human Papilloma Virus. Atypical cells with a positive HPV need further diagnostic testing, while atypical cells with a negative HPV is considered to be a normal Pap smear.

HPV testing can be performed from the same sample of cells that were collected for your Pap test, but this test is time-sensitive and must be performed within a specified number of days from the date of collection. Therefore, we will order today what is called “reflex testing”.

Reflex testing simply means that if your Pap test is normal, no other tests will be performed, and the bill you receive from the laboratory will be for the Pap only. If your Pap test is returned with atypical or abnormal cells, HPV testing will automatically be performed. In this case, the bill you receive from the lab will include both the Pap and the HPV test. This is now considered standard protocol, regardless of which laboratory does the testing.

We realize that reflex HPV testing may result in a significant increase to your lab bill. However, we firmly believe that this is a vital piece of information to have in the event of an abnormal Pap. HPV typing is the easiest and most effective means we have to determine how to treat an abnormal Pap test. One other option exists as an alternative to reflex testing, but as this requires two office visits and collection of two separate samples of cells, we believe that reflex testing is also the most cost-efficient method.

Please feel free to let us know today if you wish to decline reflex HPV testing.

____ I have read the above information and choose to allow Reflex HPV testing.

____ I have read the above information and choose to decline Reflex HPV testing. I understand that this may result in being recalled for another office visit if my Pap test is atypical or abnormal.

Signature _____ Date_____
